Release Notes:

We welcome our buddies Raumakustik on Ipoly Music, who already had their debut "Great Love" hybridly on Microtonal last summer. Constantly touring through the land with their cordial and poppy but techy stuff they now take seat on our catalogue number 006.

On A side we have "Superfly" and first we sally with Alec Troniq's powerful remix. Strict grooves extatically fighting with mind swirling moments. The original on A2 is a hovering open air tune based on its unmistakable melody.

"Jackpot" has its place on B. The Mentalic remix comes along with a driving offbeat bassline and his typical breaks and buildings.

Raumakustik's original shows their light-hearted understanding of the club scenery. And as a digital bonus they additionally present their warm smilemaker "Frenetic".
