RELEASE INFOS:

Alec is one of the most-promising acts from East Germany at the moment with a very own unique style crossing reduced techno with epic and mystical influences. His debut single „Passengers“ on Etui Records brought him very good support from various key-DJs like Karotte and his last EP „Sub Aquers“ on Ipoly Music is dreamy grooving the clubs at present, played by Laurent Garnier etc.

„Orville“ is matching with a teeting drive and its beautiful spheres while Alex Carbo puts the theme into a powerful minimalistic remix. „Not in violet“ is a well freaky dancefloor track with some vocoded voices.

As a digital bonustrack comes Mentalics remix of Orville – straight forward, dark and weird as usual.
