#### Release Notes:

Microtrauma is another promising Act from the Microtonal Camp. The Duo is producing music together already more than 8 years. After crossing nearly every style of electronic music they finally found their destination in technoid sounds naming Stephan Bodzin or Dubfire as their personal heroes. Their Microtonal debut is a very straight one – three primetime tracks full of long delaying uplifting melodies and great basslines. Great development to their last „Collar EP“ on Elected Tunes in 2008.
