RELEASE INFOS:

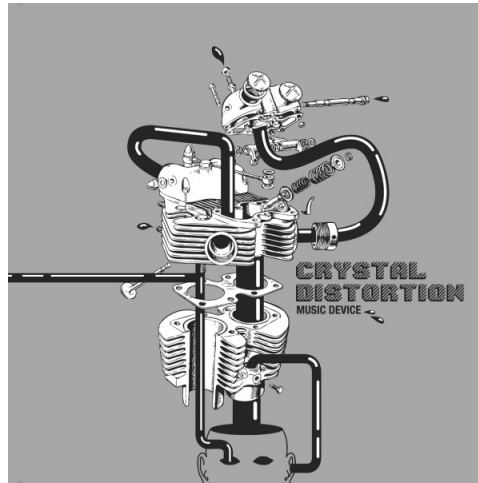

The plan for 2009? The 6th album in the crystal distortion series is well under way, due for release in September. In the meantime there will be plenty of dancefloor material via a variety of different labels, live performances up to at least next winter, recording and mixing an album for Brussels' favourite alternative orchestra 'back to normal', remixes for techno punk group 'Pinstickers', and a sonic warfare conference in a secret location with Ingmar Walker (half of acid techno superduo 'Air Liquide'), and Dr Macabre (remembered for his world dominating 'Lunatic Asylum')...

Enjoy the music.
